

**Summer Technology Institute 2010**  
**June 21 – 25, 2010**  
**Hutchinson Center, Belfast, Maine**

*"The Summer Tech Institute was the paradigm of how professional development should be!" Bridget R.*

This Institute gives participants the opportunity, knowledge and skills to immerse themselves in technology that extends and enhances learning and teaching. It's a wonderful opportunity for High School teachers learning to use 1-to-1 computing.

- Participants attend the same topic strand every morning.
- Afternoon workshops present a variety of ways to integrate into the curriculum
- May be taken for 3 graduate credits or 4.5 CEUs.
- Light breakfast and lunch are included.

#### MORNING STRANDS

- Podcasting for a Purpose (Jay Baack)
- Novice Strand: Catering to Beginners' Needs and Interests (Scott Bosworth)
- Moodle / Mahara Mania (Tim Hart)
- Google Apps for Education (Sarah Sutter)
- Motivate, and Empower Your Students Through Digital Media (Laura Richter)
